

- Think outside the box...how do we get this done?
- God says we can do anything with Him involved
- “What if we...”
- What is our vision?
- Less reactionary...what is our purpose?
- Caught up in tradition (each group)...how do we go forward?
- What are those hard questions?
- Think out the proposed outcome and its effects
- Think it through and not rush it
- Change things that can be changed and accept things we cannot change (example discussed was school sports & how FLC worked around it with a successful Wednesday night event/activities/service)
- Going forward with Covid. How do we continue to make life & faith meet?
- Snowbirds were unable to attend but can now because of streaming options due to Covid
- When we return to church, we’ll all be newcomers.
- What can we do to help find our way back?
- Questions will bring us to good places, lead us to a new place.
- VT brings the experience
- Be proactive and not reactive.
- Lucas is a recent transfer and appreciates the foundation from FLC’s old church to the new one. FLC’s priorities are in the right place and he likes that.

One on Ones with Pastors and VT Reps:

- ❖ These meetings will define goals to focus each of our boards on to build from there
- ❖ Revisit purpose of each board
- ❖ Possible volunteer to the respective boards
- ❖ How we want to grow in each ministry area
